"Extra Large"  
banquet plates.

E-1200-XL

To achieve maximum capacity, "XL Series" maximum cover size is 12.375" diameter.

For 11" cover size, refer to "E Series".  
(See Specification Page: S1-1)

For 13.25" cover size refer to "XXL Series".  
(See Specification Page: S1-3)

**No one builds a better banquet cabinet – period! These versatile cabinets allow either canned fuel or efficient forced air electrical heat to keep prepared meals hot & appetizing.**

TM

The "E Series Dual Heat" cabinets are specifically designed to provide even heat distribution throughout the cabinet interior in both *canned* fuel and *electric* operation. FWE's advanced built-in blower system combined with our unique baffle and vented tunnel minimizes temperature differences top to bottom and side to side. FWE's system allows you to use the entire cabinet... even the lowest shelf!

The heat system is built into the cabinet to reduce maintenance and cleaning costs. Clean up is effortless. The controls are upfront, eye-level, and feature a full range thermostat adjustable to actual temperature so they are easy to see and operate. Our cabinets are built tough using stainless steel throughout. Welded construction and our exclusive tubular stainless steel base frame ensure that our cabinets will withstand the most demanding use. And when it comes to selection, no one offers more than FWE. We offer sizes and capacities to fit any operation. Make your choice FWE . . . the "Choice of the Professionals."
